TEAM 18035 RECONNECTING...

Dear Potential Sponsor,

We are Team #18035 Reconnecting..., a competitive robotics team based in Chambersburg. As part of *FIRST*® Tech Challenge (FTC), **we design, build, program and operate robots** to compete in regional and state-level competitions—gaining valuable hands-on experience in **engineering, programming, business, and teamwork** along the way.

This past season marked our **second consecutive year advancing to the PA Championship**, where we competed among the top 40 teams in the state and earned our first-ever state-level award! We were **honored with the *Design Award***, which recognizes creativity and engineering excellence. In addition, we **won both the *Innovate Award* and *Inspire Award*** at our qualifying tournaments—celebrating our team's ingenuity, community outreach, and leadership. With your support, **we aim to build on this momentum and achieve even greater success** this season!

Why Your Support Matters

As a **501(c)(3) nonprofit**, our program is **volunteer-run and community-supported**, meaning **sponsors like you** play a crucial role in helping students access STEM education.

Your sponsorship will:

- Provide students with **hands-on STEM learning** opportunities
- Help fund **robotics parts, competition fees, and outreach initiatives**
- **Inspire** the next generation of **engineers, problem-solvers, and business leaders**

Ways to Get Involved

We invite you to join our network of sponsors and STEM supporters! Enclosed is a **sponsorship form outlining different support levels** and benefits. In addition to financial sponsorships, **we also welcome mentors**—professionals who can share their expertise in engineering, programming, marketing, or business to help guide and inspire our students.

To learn more, visit our **website at iheartrobots.org** or follow our journey on **Facebook and YouTube @Reconnecting18035**. For questions, **email us at FTC18035@gmail.com**. We'd love to discuss how we can work together to support the next generation of STEM leaders!

Thank you for considering this opportunity to **invest in the future of STEM!**

Sincerely,

Team #18035 Reconnecting...
